

Clinical Pharmacist in the USA

Becoming a clinical pharmacist in the US (<https://nabp.pharmacy/>):

- 1) Obtain FPGEC certification. This process will include passing the FPGEE and the TOEFL iBT exams.
- 2) Obtain a license from board of pharmacy of the state that you intend to work in.
- 3) Afterwards, you need to find a job as a clinical pharmacist in the state that he is licensed in.
- 4) More information can be found here:
